

Professional security services for the business community

Patrol Services

Ensuring your premises are secure can be a headache. When you leave each night, the business is a potential target for any would be intruder.

Mobile patrols offer an excellent preventative and very affordable security service to all types of business and private clients. Because costs are shared by other customers in the same patrol area, the service offers significant cost savings over the traditional full-time dedicated security guard.

All our Patrol Guards are SIA licensed, fully equipped with the latest technology and highly trained to deal to a wide range of situations effectively and confidently, ensuring that any incident will be resolved in a professional and speedy manner.

Our Mobile Patrol service offers

- Patrols operating 24 hours a day, 365 days a year
- Random visits to avoid anticipation by potential intruders
- Regular checks for signs of intrusion/open doors & windows, property damage and vandalism or graffiti
- An early warning and fast response to any incident

Our Mobile Patrol service provides the perfect solution for a cost-effective, efficient and visible deterrent.

Licensed, uniformed mobile guards will visit and inspect your premises at agreed frequencies and physically patrol and check for damage or intrusion.

We employ local mobile patrol staff with local knowledge to provide pre-determined or roving mobile patrols including "walk and check" functions.
